#### **PROJECTS**

# **EcoGuardian-Link**

- An Al-powered web app built to conserve nature by integrating real-time habitat monitoring, species tracking, carbon footprint reduction, and reforestation planning with the community to share stories & connect with environmentalists.
- Habitat Monitoring with AI analyses habitat type, health & threats, and Species Tracking with AI identifies species & conservation status.
- Carbon Footprint Calculation with AI calculates emissions & gives reduction tips, and Reforestation Planning with AI suggests suitable tree species & growth forecasts.
- Tech stack used: React.js (19.0.0), TypeScript, React Router, TailwindCSS, Chart.js, React Dropzone, Firebase, Google AI (Gemini API, Vertex AI, Cloud Storage).

# Rajasthan AI chatbot-Link

- The chatbot will allow real-time, 24/7 assistance without the need for human intervention and provide instant responses, reducing the workload for college staff.
- Eliminates the need for stakeholders to call or visit colleges physically.
- Tech stack used: Web Dev, HTML, CSS, JS, NLP, Botpress

#### TracAura- Link

- Track your aura score daily with personal notes on what's influencing your energy.
- Update your aura score based on social media post data and interactions using Gemini API.
- Sign in with Google for seamless access and share your profile and vibes with friends.
- Tech stack used: React with TypeScript, React Hooks, Tailwind CSS, Node.js + Express, Firebase, Vercel, Gemini API, ProxyCurl API

# **ACHIEVEMENTS & ACTIVITIES**

- Smart India Hackathon 2024 Winner at the college level
- Postman API Fundamentals Student Expert
- Website Developer of Ramakrishna Math Garbeta
- Certified Summer Intern of Craftlab
